

Day 40 Task

Linked List insert, delete, search and print operations

Q1. Create a Linked list with insert, delete, search and print operations

The expected output is shown below.

```

Value found at position: 6
script.js:116
▼ LinkedList {head: Node, size: 4}
  head: Node
    data: 2
    next: Node
      data: 99
      next: Node
        data: 2.5
        next: Node
          data: 3
          next: Node
            data: 4
            next: null
