

## Day 29 Task

### Event Handling, Bubbling, and Trickle down

1. Create a webpage using Event Handling, Bubbling, and Trickle down.

The expected output is shown below.

The image displays two screenshots of a web application interface. Both screenshots feature a red header bar with a white 'e!' logo on the left. The main content area is white and contains a list of user profiles, each enclosed in a green-bordered box. Each profile includes the user's name, a unique ID, an email address, and a 'Delete' button at the bottom.

**First Screenshot (Initial State):**

Name	ID	Email	Action
Rahul	3567	mailme@gmail.com	Delete
Ravi	9867	ravimail@gmail.com	Delete
Santosh	8876	santoshmail@gmail.com	Delete
Surya	3469	suryamail@gmail.com	Delete
Kiran	8844	kiranmail@gmail.com	Delete

**Second Screenshot (After Deletion):**

Name	ID	Email	Action
Rahul	3567	mailme@gmail.com	Delete
Ravi	9867	ravimail@gmail.com	Delete
Surya	3469	suryamail@gmail.com	Delete
